- **Development of dynamic and secure web applications**
- **JavaScript Frameworks: React,Vuejs**
- **PHP Framework: Laravel**
- **UI Libraries & Tools: UIKit, Magic UI**
- **Project Management Methods: Agile Scrum methodology, Jira**

Bacaloret science physique

Aouda Saadia, Marrakesh, Morocco From Sept. 2018 to July 2019

Work experience

Web Development Internship

NJT Group, Marrakesh, Morocco From Jun. 2024 to Aug. 2024

During my full-stack developer internship, I worked on a project aimed at increasing the visibility of local businesses in Morocco.

I used Laravel 11 for the back-end, React for the front-end, and Node.js for specific tasks. I integrated various APIs, implemented authentication features, and improved the application's interface based on feedback from my colleagues and manager

Web Development Internship

Sey Web, Marrakesh, Morocco From Apr. 2025 to May 2025

Created a dashboard allowing users to generate web pages without writing code, simply by filling out forms.

Built a dynamic interface using React, with a Laravel back-end and MySQL database. Enhanced full-stack development skills, user experience (UX) design, and SEO best practices.

Cashier

McDonald's, Marrakesh, Morocco From Aug. 2025 to Oct. 2025

- Take orders at the counter, self-service kiosk, or drive-through.
- Deliver orders to customers quickly and accurately.
- Contribute to teamwork

Customer-focused Check-in Agent

Souissport, Marrakesh From Jan. 2026 to Jun. 2026

- Worked efficiently under pressure
- Strong communication and teamwork skills
- Multilingual: English, French
- Issued boarding passes and managed baggage check-in
- Provided flight information and customer support

Skills

SQL,NoSQL, MongoDB,PHP and laravel

Proficient in database management and server-side development, capable of creating dynamic and secure web applications with complex interactions between the database and user interface.
